

# Let's Talk About Interviews

Special class

# Technical Interviews

CodeHelp Supreme Batch

# % / CGPA ?

1. It may or may not matter 😊

# Before that, Coding Test

1. Aptitude vs Coding questions.
2. Technical writing ???

# What is Interview?

1. Interviewer - Interviewee

# Interviewer's Requirement

1. Will
2. Skill
3. Behaviour - Thinking he/she is already working along with.
4. Articulation Skill

# Solving Problem in Interview

1. Treat Every coding question as a new one. (Again, Behaviour skill)
2. Increase Complexity Step by Step.
3. Don't hesitate to ask for hints (obviously not much)
4. Actually, Don't know -> Try.... Then, be honest.
5. In theory questions, Be Brutally Honest.
6. Don't ask non-tech questions.

# Writing Good Code

1. Identifier's naming
2. Indentation
3. Only Required comments.
4. No Magic Number

# Virtual Interviews

1. Don't be over-smart.
2. No Cheating.

# Project Discussion

1. Prepare for but obvious questions.
  1. Motivation to build this?
  2. Why this?
  3. Why not that?
2. Scaling questions
3. Why only this Tech Stack?

# HR Round

1. On-campus
2. Off-campus
  1. Should know, what is your job role's value outside.
  2. Connect with already working people in that org.
  3. Ask relevant questions about org.
